To Whom It May Concern:

Efficient, organized, effective, motivated, inspirational, and leader are just a few words which describe Tammy Cardwell. Her work ethic and her strong instructional leadership skills are her strongest assets. I strongly recommend Tammy Cardwell for a teaching position at your campus.

I have developed a great deal of confidence in her ability to extend her learning and contribute her ideas in her teaching career. She is self-assured, self-motivated, and self-reflective. She utilizes many teaching strategies in her lesson plans, and working with practicum students. Within the framework of varied teaching approaches, Tammy Cardwell is able to challenge all students while increasing excellence and equity for all. She strongly believes that every student is entitled to the promise of a teacher's enthusiasm, time, and energy. More importantly, she believes that all students are entitled to teachers who do everything within their power to assist them in reaching their potential.

Tammy Cardwell is an excellent student and educator. Education needs more passionate teachers like her. The bottom line is that she teaches with heart, brain, and success in mind. She is an excellent student and would carry out the same leadership and enthusiasm that she has exhibited in her career thus far.

Sincerely,

Cynthia Dawn Martelli, Ed.D.
